To whom so ever it may concern

Sigma Group of Institutes is one of the biggest educational campus in Gujarat. We have a vision to grow and our growth will be incomplete without active participation of industries. We believe that the End product of our educational system is student and we always have a strong desire to prepare our student as per the requirement of an industry. Therefore, during the study period, we keep on sending our student for industrial visits as well as Semester-Break Industrial Training. We further believe that you have moulded many of our students and this is a time we feel that you are not an outsider but part of us.

On 22nd March, 2017, we are organising Mega Job Fair for Degree and Diploma Engineering students, Pharmacy, Physiotherapy, Nursing, as well as MBA students. We would like to invite your prestigious Industry/Organization to be part of this Mega Job Fair in which students from various Prominent Institutes of Gujarat will be participating. Kindly share your requirements (Job Description's) with us so that we can scrutinize the students before the actual interview process. A separate cabin for conducting interviews and one staff coordinator to coordinate with you and the students will be provided to you by us.

Kindly, give us the Name, Designation, Contact No. and Email address of your representative who will be attending the Mega Job Fair.

Looking forward to full co-operation from your side.

With regards,

Harsh S Shah
Managing Trustee
Sigma Group of Institutes
